1. Safety instructions

- This device is suitable for indoor use only.
- All modifications to the device will void the warranty.
- Repairs are to carry out by skilled personnel only.
- Use only fuses of the same type and original parts as spare parts.
- Protect the unit from rain and humidity to avoid fire and electric shocks.
- Make sure to unplug the power supply before opening the housing.

1.1. FOR SAFE AND EFFICIENT OPERATION

Be careful with heat and extreme temperature

Avoid exposing it to direct rays of the sun or near a heating appliance.

Not put it in a temperature bellow 32°F / 0°C, or exceeding 131°F / 55°C.

Keep away from humidity, water and dust

Do not place the set in a location with high humidity or lots of dust.

Containers with water should not be placed on the set.

Keep away from sources of hum and noise

Such as transformer motor, tuner, TV set and amplifier.

To avoid placing on un-stable location

Select a level and stable location to avoid vibration.

Do not use chemicals or volatile liquids for cleaning

Use a clean dry cloth to wipe off the dust, or a wet soft cloth for stubborn dirt.

If out of work, contact sales agency immediately

Any troubles arose, remove the power plug soon, and contact with an engineer for repairing, do not open the cabinet by yourself, it might result a danger of electric shock.

Take care with the power cable

Never pull the power cable to remove the plug from the receptacle, be sure to hold the plug.

When not using the device for an extended period of time, be sure to disconnect the plug from the receptacle.

Important: Damages caused by the disregard of this user manual are not subject to warranty. The dealer will not accept liability for any resulting defects or problems. Make sure the electrical connection is carried out by qualified personnel. All electrical and mechanical connections have to be carried out according to the European safety standards.

2. Introduction

The Showtime base is the main part of the Showtime Series. It is the base for the different faces. You can mount the different faces as described in this manual. You should know that the base cannot do anything without the corresponding face. The complete intelligence and menus are installed in the face part. The base is just equipped with a PSU the Display and the corresponding electronics.

The idea is the possibility to change the faces to create a maximum multifunction, by leaving the base installed and just mount a new face. Even for rental this is useful that you can assemble the Par Can according to the user's choice. So be creative with the achieved possibilities!

5. Installing the face on the base

- Make sure that the power is always of and the unit is not connected to the mains!
- The led part has to look in our direction.
- Make sure that the backside of the base looks also in your direction.
- Now the connector should be at the lower right side.
- On the face side as well.
- There is now only one fitting point to push these two parts together.
- After you did that, please push and turn the two quick locks at the face.
- Make sure that the face is now connected well to the base.
- Power it on again.
- Now the menu should show up the text according to the chosen face mounted.
